

Team: NUST CYBER SECURITY TEAM

Inject Number: 04

Inject Duration: 45 Minutes

Inject Start Date/Time: Sat, 29 Jul 2019 12:15 – 13:00

From: IT Auditors

To: Network Support Team

Subject: External Services Self Assessment

Use the Windows machine on the external segment to run NMAP/ZENMAP and discover all the services that are available from the outside. Write a management memo that documents your findings. Enumerate in a table the host-id, service (protocol and port) and a comment that the service is needed or not needed as an externally available service.

Thank you.
