Subject: Inject Response Instructions

In the subsequent injects you will be asked to complete and task and frequently the response is a business memo that documents what you completed. The content should reflect a business communications and be readily readable. Screenshots can be used in the memo to verify the completion of the tasks. Scores will generally depend upon the form of the memo and the content as a business communications piece. The second part of the score is an assessment of the completeness and correctness of the task itself. There is only one response to injects, they cannot be edited or resubmitted and the time requirement is enforced. Respond to this inject with a note that you have read these instructions.

Thank you.
